### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Grant Scott on 7/13/06, whereby:

Claims 14 and 16-17 are further amended.

3. The application has been further amended as follows:

14. (Currently amended) An integrated search engine device, comprising:

a content addressable memory (CAM) core configured to support at least one database of searchable entries therein; and

a control circuit configured to support generation of at least one interrupt to a command host in response to detecting a sufficiently full storage memory device containing a number of ~~containing~~ addresses of entries that have been aged out of the at least one database and/or addresses of entries that have exceeded an activity-based aging threshold that exceeds a threshold count value, which specifies how many addresses can be stored in the memory device before said control circuit is enabled to generate the at least one interrupt.

16. (Currently amended) The device of Claim 14, wherein the memory-storage device comprises a FIFO memory device.

17. (Currently amended) The device of Claim 16, wherein said control circuit further comprises:

a level count register configured to maintain a count of unreported addresses in said FIFO memory device; and

a level configuration register configured to maintain the [[a]] threshold count value ~~that specifies how many unreported addresses can be stored in said FIFO memory device before said control circuit issues the at least one interrupt.~~

### ***Conclusion***
